More than one celebrity has travelled in the grand Rigi saloon carriages which date from 1873. Nowhere else can you travel into the wonderful mountain scenery in a more stylish or elegant way. Your trip to the "Queen of the Mountains" can be by steam train or electric locomotive – it's your choice.

The plush fabrics, mahogany, gleaming brass and prettily romantic interior décor evoke the magnificence of the Belle Époque era for passengers. A charming, elegantly clad hostess serves fine drinks and snacks. The glasses are slanted in view of the incline of the climb - a small but important detail because "noblesse oblige".

Type of Social Programmes: City-based activities & Guided city tours | Destination: Lucerne city | Number of Participants: 2, 25

Lucerne offers much more than the world-famous Chapel Bridge with its water tower, the Jesuit Church or the KKL Lucerne. You can get to know the city of Lucerne in new ways on the various themed tours. There is a lot to discover: Lucerne in the 19th century, the facade paintings, the trendy Bruch district or delicious food on a culinary tour.

The legendary charm of Lucerne is evident from the wide choice of themed tours. The "landlady with a passion for hospitality" takes you on a walk through Lucerne's streets in 1860 when tourism was booming – and hotel rooms lacked running water. That was a time when war, misery and loss were leaving their mark on the people of Lucerne – while, in complete contrast, the food served courtesy of fixed-price menus was plentiful. And what has a quarry to do with the new trendy Bruchmatt quarter? Come to that, what do all the facade paintings in Lucerne's Old Town mean? Lucerne's themed tours reveal all.

All theme tours can be found here.

Type of Social Programmes: City-based activities & Guided city tours | Destination: Lucerne city | Number of Participants: 2, 72

You will experience Sonnenberg, one of the world's largest civilian bunkers! Had it ever been needed, two highway tunnels would have been sealed off by four blast doors and transformed into a bunker with room enough for 20,000 beds and hundreds of toilet cabins and sinks. In fact, one third of the population of Lucerne would have found shelter inside Mount Sonnenberg.

To complement the bunker, a seven-storey underground building surrounding the motorway tunnels was built, serving as the logistical and technical command facility for the shelter. This consisted of a command centre, a radio studio, an emergency hospital, detention cells and much more.

The guided tour in English provides a fascinating insight into the Cold War, the Fear of the nuclear bomb and the use of the bunker today.
